

# Virtual Special Collection: Spotlight on Educational Resources

## Alternatives to Laboratory Animals

[journals.sagepub.com/home/atl](http://journals.sagepub.com/home/atl)

We are currently collating papers for a Virtual Special Collection on educational resources for non-animal methods

- Have you or your organisation developed training programmes in the field of non-animal approaches?
- Do you have set tools, or know of training events, that have been essential to your scientific advancement?
- Are you actively developing resources in this field and want to promote the use of alternatives to laboratory animals?
- Can you recommend resources that can advance the understanding of scientifically robust new approach methodologies?
- Do you want to bring these resources to the attention of a wider audience?
- If so, this online VSC is the perfect platform!

### About the journal

ATLA is a peer-reviewed international journal that has been at the forefront of promoting and publishing on all aspects of the development, validation, implementation and use of animal alternatives, for almost 50 years. In addition to the replacement of animals, it also covers work that aims to reduce the number of animals used and refine the *in vivo* experiments that are still carried out (the Three Rs).

### Submission guidelines

[journals.sagepub.com/author-instructions/ATL](http://journals.sagepub.com/author-instructions/ATL)

### More about the online VSC

- Will highlight current educational and training initiatives that promote the use and development of non-animal approaches.
- Will include a range of in-depth review articles, research papers, and short *Comment* articles.
- Articles will be made available online (subject to access rights) as soon as they are published.
- High visibility on the award-winning SAGE Journals platform, securing a wide international audience, including researchers, policymakers and educators.
- Prompt publishing and no submission or publication fees payable.

### Submission process

- Efficient and straightforward submission and peer review process, via the SAGE Track system.
- To discuss the suitability of your paper, please contact the VSC Editor, Susan Trigwell, at [susan@frame.org.uk](mailto:susan@frame.org.uk)
- **Submission deadline: 1st August 2021**
